Established in 1935, Tigar is a holding company operating diversified lines of business. Environmental management, per ISO 14001, was certified a decade ago and ensures continual improvements and sustainable development.

■ Activities

Our core business is the production of:
- rubber footwear
- technical rubber products
- products made from recycled rubber

Our non-core businesses are:
- production of coatings and adhesives
- trade
- civil engineering design and construction
- waste management

■ Environment

Our environmental performance is based on:
- control of electric power, heat and water consumption
- control of emissions into air and discharges
- waste and packaging waste management
- chemicals management
- the level of achievement of established environmental objectives and improvement programmes

■ Reporting

In addition to providing regular annual reports to investors, customers and other stakeholders, following the establishment of a National Register of Pollution Sources in Serbia, beginning with a 2007 report, Tigar now also reports to the Serbian Environmental Protection Agency. Having implemented the TEAMS* solution for environmental accounting and reporting, this software will support our new annual report.

* The EMC Centre provides its client-partners with the use of TEAMS SR software, an environmental accounting and reporting system in accordance with the PRTR Protocol and national legislation of the Republic of Serbia in this area.
