INTERREG Europe Policy Learning Platform on Environment and Resource Efficiency

Policy learning platforms on research and innovation, SME competitiveness, low-carbon economy, and environment and resource efficiency aim to open up knowledge for the benefit of all project partners and regional policy stakeholders.

Activities
- Providing a Knowledge and Education Centre
- Facilitating networking and partnering opportunities
- Offering an expert helpdesk for policy advice
- Giving expert support for policy learning, including peer reviews, benchmarking, thematic workshops and capacity building

Impacts
- Targeted services provided to support regions to respond to challenges and to improve environment and resource efficiency
- Learning and collaboration facilitated in order to improve Structural Funds and other regional development policies in the area of environment and resource efficiency

IN NUMBERS
- 1 online platform
- 26 INTERREG projects and counting
- 8,000 registered users

GEOGRAPHICAL SCOPE
EU28 | Norway | Switzerland

Duration: 2016–2023
Donor: INTERREG Europe

Capacity Building on Environment, Health, Social and Safety Issues

The project provides training for local consultants in seven countries on environment, health, social and safety (EHSS) issues.

Activities
- Developing a tailored training programme
- Designing and implementing seven one-week training events tailored to regional requirements

Impacts
- Increased competencies of local EHSS consultants
- Increased capacity of local consultants to work on EHSS issues in compliance with the requirements of the European Bank for Reconstruction and Development (EBRD) and other international financial institutions

IN NUMBERS
- 1 training programme
- 7 workshops
- 150 local consultants

GEOGRAPHICAL SCOPE
Albania | Bosnia and Herzegovina | Croatia | Former Yugoslav Republic of Macedonia | Serbia | Turkey | Ukraine

Donor: EBRD
Budget: EUR 112,000
